Dear Sir:

On or about May 7, 2003, Applicant cited, by mail, a number of references in an PTO-1449 in this application. One of those references listed on the PTO-1449 was Japan 9-55715. However, the statement of relevance regarding that reference was in error. This paper presents the correct statement of relevance.

Japan 9-55715 is believed to be a counterpart of the Saito et al. reference already of record in this case. Applicants submit that Japan 9-55715 is believed material to this application because of its earlier publication date of February 24, 1997. An English language abstract of Japan 9-55715 is also enclosed.

Please contact the undersigned if there are any questions regarding this statement or this application.

Respectfully submitted,

Rodney M. Anderson
